

Life Math, a 21st Century technology, uses money - *the math of life* - to help people respond successfully to the financial opportunities and challenges. It's nationally recognized and has benefited over ten thousand consumers and small businesses over the last three decades. Those who use our method/service consistently find it useful in both long-term and short-term usage.

In the spirit of promoting and further developing financial awareness, and in partnership with Empower Yourself LTD and their mission, LifeMath software will be provided and distributed to the students of Empower Yourself for use in educating other students, their families, and the community at large.

Unlike similar budgeting and accounting sites and platforms, LifeMath will never ask for any personal information, passwords or private information. Please contact us for more information on how Life Math can help further develop and assist one's understanding of finance and budgeting.

If you want our students/staff to conduct a seminar at your school or in your community please contact us.

LifeMath is a 1998 trademark of Moneywatch LTD.
